National Seed Company Selected for 2010 ILCA Distinguished Service Award

Tom Breier taught his sons Tim, Dan and Mark that in business and in life it's important to give more than you receive. With a philosophy like that, it's not surprising that their family-owned business, National Seed Company, earned ILCA's Distinguished Service Award. Tom, who's been in the industry since 1980, started National Seed in 1991, joining ILCA right away. Each year since then, the company, which distributes proprietary grass seed, chemicals, fertilizers, ice melt and turf maintenance products, has been an exhibitor at Mid-Am and at Summer Field Day. "They've been sponsors, exhibitors, always there to help out," says ILCA Past President Tyler Smith. "Mark's offered a lot of suggestions over the years on how to improve those shows.

National Seed Tree Watering Bags

Tired of standing next to a newly planted tree with a hose and seeing most of the water running away from the tree into the grass?

Then make your job easier and more effective — use a National Seed Tree Watering Bag!!

The National Seed Tree Watering Bag distributes approximately 20 gallons of water around the base of the tree over a 4-6 hour period. This allows the water to be absorbed into the ground rather than run off. This is very useful when planting a new tree or watering a young tree in the dry time of the year.

785 John Beam

785 John Beam spray gun delivers up to 800 psi for the tall hard to reach trees. Easily adjust from mist to solid stream.

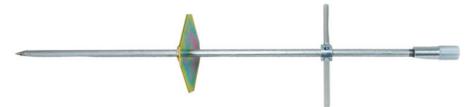

Green Guard JD9

Green Guard JD9 high pressure spray gun adjust quickly from mist to pencil stream. Trigger locks for user comfort. Ruggedly build precision machined. Wide choice of tips, nozzles.

Hudson Root Feeder

Hudson Root Feeder attaches to JD9 spray gun. Allows uniform and precise dosage for tree and shrub fertilization.

1-Two Root Injector

This versatile tool accurately delivers liquid Nu-Arbor Root Fertilizers and can also be utilized to inject soil applied insecticides such as imidicloprid.
